

Scientific Symposiums INTERNATIONAL

MARCH 2-5, 2020

<https://www.scientificsymposiums.com>

Join us at the Hyatt Regency, Kaanapali, Lahaina, Hawaii

HYATT REGENCY MAUI RESORT & SPA, LAHAINA, HI

Set upon 40 oceanfront acres on Maui's Ka'anapali Beach, Hyatt Regency Maui Resort and Spa offers a true getaway in paradise. Experience Hawaiian hospitality with on-site resort activities including a traditional lu'au and stargazing. Stay loose on the links with access to oceanfront golf or retreat to the beachfront spa.

SURGICAL PATHOLOGY UPDATE: DIAGNOSTIC PEARLS FOR PRACTICING PATHOLOGISTS IN GENITOURINARY, PLACENTAL AND BREAST PATHOLOGY

Our World-Renown Faculty include::

Amy McKenney, M.D., Cleveland Clinic

Jesse McKenney, M.D., Cleveland Clinic

Mara Rendi, M.D., University of Washington

Mark Wick, M.D., Cleveland Clinic

Our Lecture Titles:

1. Paraneoplastic Disorders of the Skin (Mark Wick M.D.)
2. High-Risk Lesions of the Breast (Mara Rendi M.D.)
3. Pulmonary Infections: A Pattern-Based Diagnostic Approach (Mark Wick M.D.)
4. Challenging Spindle Cell Lesions on Core Biopsy (Mara Rendi M.D.)
5. Mesenchymal Neoplasms of the Mediastinum (Mark Wick M.D.)
6. Flat Urothelial Lesions with Atypia: They're Difficult for Everyone (Jesse McKenney M.D.)
7. Placental Gross and Microscopic Anatomy Boot Camp (Amy McKenney M.D.)
8. Intraductal Carcinoma of the Prostate: A Deep Dive (Jesse McKenney M.D.)
9. The Ischemic Placental, Clinical Presentation and Pathology of Fetal and Maternal Malperfusion
10. Breast HER2 Testing, Reporting and Treatment Implications (Mara Rendi M.D.)
11. Adnexal Skin Tumors: Commonest Examples
12. Must Not Miss Placental Diagnoses with Recurrent Potential in Future Pregnancy
13. Mimics of Urothelial Neoplasia
14. Placental Pathology of Fetal/Neonatal Infection
15. Immunohistochemical Pitfalls in Genitourinary Pathology
16. Papillary Lesions of the Breast
17. Gestational Trophoblastic Disease
18. interstitial Lung Disease: A Diagnostic Overview
19. Renal Neoplasms with Clear Cytoplasm: More Than Just Clear Cell RCC
20. Molecular Testing in Breast Cancer: The Pathologist's Role
