

MAUNA KEA RESORT, BIG ISLAND OF HAWAII

KINGSMILL RESORT, WILLIAMSBURG, VIRGINIA

Celebrating the Illustrious Career of Dr. Richard L. Kempson: Surgical Pathology of the Breast, Female Genital Tract, Head & Neck and Lung

JULY 20 – 23, 2015
Hapuna Beach Prince Hotel/Mauna Kea Resort, Big Island of Hawaii

Richard L. Kempson, M.D., is Professor Emeritus of Pathology at Stanford University School of Medicine. He received his MD and anatomic pathology training from Tulane University School of Medicine and was a surgical pathology fellow and then Assistant Professor of Pathology and Surgical Pathology at Washington University School of Medicine. He later moved to Stanford University Medical Center where he served as a Professor and the Co-Director for the department of Surgical Pathology for over 30 years. Together with Dr. Ronald Dorfman he established an internationally recognized residency and surgical fellowship program, which went on to train more than 275 pathologists in the art and science of diagnostic surgical pathology. He has served as the President USCAP, the Association of Directors of Anatomic and Surgical Pathology, the Arthur Purdy Stout Society, and the California Society of Pathologists. He is one of the major thought contributors to the current practice of diagnostic surgical pathology, particularly in gynecologic, breast, and soft tissue pathology.

Scientific Symposiums International is pleased to honor Dr. Kempson in this special tribute surgical pathology course and to celebrate his illustrious career with fellow physicians and Dr. Kempson's past residents, who represent locations across the United States, Canada and other countries around the world.

ABOUT THE COURSES

Each lecture topic is covered by a 45-minute lecture or panel discussion and a 15-minute question-and-answer session. The course lectures begin at 7:30 a.m. and end at 1 p.m. each day of the course week.

COURSE GOALS AND OBJECTIVES

A Practical Approach to Common Problems in Surgical Pathology: Focus on GI, GU, Soft Tissue, Lung and Head & Neck Pathology

The goal of this course is to provide practicing surgical pathologists with cutting-edge as well as practical updates for improving their diagnostic skills in their approach to inflammatory and neoplastic lesions in GI, gynecologic, pulmonary, lung, head and neck and soft tissue pathology. Emphasis will be placed on providing diagnostic criteria for each entity and presenting diagnostic pearls in avoiding over- and under-diagnosis. Course objectives are to cover in detail:

- Cost-effective use of appropriate ancillary diagnostic techniques including immunohistochemistry and molecular assays
- Review of the most up-to-date classification and staging of neoplastic processes
- State-of-the-art diagnostic criteria for distinguishing benign, borderline and malignant lesions

Surgical Pathology Update: GI, GU, ENT and Soft Tissue

The goal of this course is to provide practicing and in-training surgical pathologists with practical updates for improving diagnostic skills in the areas of head and neck, genitourinary tract, GI tract and soft tissues. Emphasis will be placed on practical problems and avoiding over or under diagnosis. Course objectives to be covered:

- Avoiding diagnostic pitfalls in head & neck, genitourinary, gastrointestinal and soft tissue pathology.
- Becoming familiar with variants of neoplasia at these anatomic sites that cause diagnostic difficulty or have important clinical significance.
- Understanding current thinking with regard to Barrett esophagus, serrated lesions of the colon, GISTs, vascular tumors, and neural tumors.
- A review of the 2004 WHO classification of urothelial neoplasia.

Critical Issues in Cutaneous Pathology: What's New as Critical New Information for Your Practice

The goal of this course is to provide Dermatopathologists, Surgical Pathologists and Dermatologists with practical, as well as, state-of-the-art updates and strategies for improving diagnostic skills on cutaneous lesions, with an emphasis on avoiding over- or under-diagnosis. Course objectives are to cover in detail:

- Criteria for the diagnosis of controversial entities both benign and malignant, as well as recently described neoplasms
- Establish criteria for diagnosis of inflammatory disorders.

Surgical Pathology of the Breast, Female Genital Tract, Head & Neck and Lung

The goal of this course is to provide practicing and in-training surgical pathologists with practical updates for improving diagnostic skills in the areas of soft tissue tumors, proliferative breast lesions, uterine neoplasms, bone tumors, and head and neck lesions. Emphasis placed on updated classification systems and avoiding practical problems in over or under diagnosis. Course objectives to be covered:

- Updates in understanding and diagnostic terminology for soft tissue tumors, proliferative breast lesions, uterine neoplasms and viral-associated ENT tumors
- Familiarity with variants of neoplasia and normalcy at anatomic sites that cause diagnostic difficulty or have important clinical significance
- Understanding current thinking regarding spindle cell and vascular lesions of the breast, interstitial lung disease and uterine mixed müllerian tumors.
- Developing an approach to difficult diagnoses in ENT lesions, lung carcinomas, mimics of endometrial carcinoma, uterine smooth muscle tumors and uncommon breast lesions.

Surgical Pathology for the Practicing Pathologist: GI, GYN, GU, Pancreaticobiliary

The goal of this course is to provide practicing surgical pathologists with cutting-edge, as well as practical updates for improving diagnostic skills on non-neoplastic and neoplastic disorders of the gastrointestinal, gynecologic, genitourinary and pancreaticobiliary tracts. Course objectives are to cover in detail:

- Appropriate use of ancillary immunohistochemical stains and molecular assays for a definitive diagnostic work-up in difficult cases
- Discussion of most recent criteria for distinguishing benign from malignant entities in the GI, gynecologic, genitourinary and pancreaticobiliary tracts.
- Focus on staging dilemmas in neoplasms in different organs
- Practical guidance in assisting with diagnostic pitfalls in order to avoid misdiagnosis

Dermatopathology in Paradise: Highlighting Oral Pathology, Soft Tissue Tumors and Lymphoma

The goal of this course is to provide Dermatopathologists, Surgical Pathologists and Dermatologists with practical, state-of-the-art updates and strategies for improving diagnostic skills on cutaneous and oral lesions, with an emphasis on avoiding over- or under-diagnosis. Course objectives are to cover in detail:

- Changing or controversial criteria for differentiating benign from malignant entities and for diagnosis of important and recently reported tumor variants, with an emphasis on soft tissue tumors, lymphomas and oral lesions.
- Differentiation and classification of benign, borderline and malignant lesions.
- Use of appropriate ancillary immunohistochemical stains and molecular assays for diagnosis tumor specific analysis.

THE MAUNA KEA RESORT, located on the sunny Kohala Coast, includes the renovated Mauna Kea Beach Hotel and the Hapuna Beach Prince Hotel, each overlooking soothing white sand beaches ranked among the world's best beaches by *Condé Nast Traveler*.

"Every great beach deserves a great hotel." This was said by Laurance S. Rockefeller, who founded The Mauna Kea Beach Hotel in 1965. Five decades later, following a \$150 million repair and renovation, The Mauna Kea once again stands as a landmark of luxury on the Big Island's golden Kohala Coast.

The Hapuna Beach Prince Hotel has defined Big Island luxury since its opening in 1994. As the second phase in Rockefeller's creation of the Mauna Kea Resort, the hotel property shares 1,839 acres of ocean-front paradise with the legendary Mauna Kea Beach Hotel. Perfectly nestled into the bluffs above the #1-rated Hapuna Beach, the hotel presents a flowing, contemporary Hawaiian style, where guests experience the true essence of rejuvenation.

The Big Island is a treasure trove of exploration, incredible scenery and phenomenal places to visit. See the mighty mountains, Mauna Loa (13,679 feet) and lofty snow clad Mauna Kea (13,796 feet), Kilauea Volcano, the Kau Desert, gorgeous waterfalls, the Puna Fern Forest, the colorful orchids of Hilo, Volcanos National Park, Kealahou Bay, Kailua-Kona, Kawaihae, Parker Ranch and Waipio Valley.

For Special Group room rates and to book your hotel accommodations, go to: www.scientificsymposiums.com or call toll-free 1-866-977-4589.

ACCREDITATION

5-Day Course: Scientific Symposiums International designates this Live activity for a maximum of 25 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

4-Day Courses: Scientific Symposiums International designates this Live activity for a maximum of 20 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Scientific Symposiums International is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Dermatopathology Courses have been approved by the American Board of Dermatology (ABD) to fulfill the periodic self-assessment requirements for ABD Maintenance of Certification.

Scientific Symposiums International is approved by the American Board of Pathology (ABP) to be a provider for Self-Assessment Modules (SAMS), as part of the Maintenance of Certification (MOC) process.

NEW FIVE-DAY COURSE (Monday – Friday)

A Practical Approach to Common Problems in Surgical Pathology: Focus on GI, GU, Soft Tissue, Lung and Head & Neck Pathology

FEBRUARY 16 – 20, 2015, Registration February 15. Hapuna Beach Prince Hotel/Mauna Kea Resort, Big Island of Hawaii
Course held at the Hapuna Beach Prince Hotel.

LECTURES

- Update on Lipomatous Tumors: Old Standbys and New Concepts
- Endometrial Carcinomas in Premenopausal Women: The Pathologists' Pivotal Role
- Ulcerative Colitis, Crohn's Disease and Mimickers of IBD
- Squamous Cell Carcinoma of the Head and Neck
- Biopsy Classification of Idiopathic Interstitial Pneumonias
- Common Morphologic Patterns in Soft Tissue Tumors: Part 1
- Common Morphologic Patterns in Soft Tissue Tumors: Part 2
- Clues for Identifying UIP: Mimics in Lung Biopsies
- Nonneoplastic Mass-forming Lesions of the Head and Neck
- Diagnostic Challenges in Gastric Pathology
- Fibrohistiocytic Tumors of Soft Tissue with a Focus on Fibrohistiocytic Tumors of Intermediate Malignancy
- Select Issues in Endocervical Malignancies
- Salivary Gland Neoplasia: New Issues
- Classification of Granulomatous Lung Disease
- Maximizing the Detection of HSIL: From Pap to HPV Testing to Tissue Diagnosis
- A Practical Approach to Medical Liver Biopsy Interpretation: Part 1
- Unraveling Spindle Cell Lesions of the Uterus
- Thyroid Pathology: Histology then Cytology
- Routine and Special Tests in Non-Small Cell Lung Carcinoma
- A Practical Approach to Medical Liver Biopsy Interpretation: Part 2
- Mesenchymal Tumors of the GI Tract
- Classification of Neuroendocrine Lung Tumors
- Sinonasal Pathology: Differential Diagnoses
- Reactive and Neoplastic Changes in Barrett's Esophagus
- Clues That an Ovarian Tumor is no Longer Borderline

NEW FOUR-DAY COURSE

Celebrating the Illustrious Career of Dr. Richard L. Kempson: Surgical Pathology of the Breast, Female Genital Tract, Soft Tissue, Head & Neck and Lung

JULY 20 – 23, 2015, Registration July 19. Hapuna Beach Prince Hotel/Mauna Kea Resort, Big Island of Hawaii
Course held at the Hapuna Beach Prince Hotel.

LECTURES

- Evolving Classification of Soft Tissue Tumors: Update Based on the 2013 WHO Classification
- Spindle Cell and Vascular Tumors of the Breast
- Proliferative Breast Lesions: Morphologic Features, Differential Diagnosis and Observer Reproducibility
- Uncommon Breast Lesions You Don't Want to Miss
- Pitfalls in Bone Pathology for the Generalist
- Evaluating Margins of Lumpectomy Specimens: A New Look at an Old Problem
- Molecular Classification of Breast Cancer and Molecular Prognostic Tests
- Diagnostic Pitfalls in Soft Tissue Tumors
- Controversies in Cutaneous Soft Tissue Tumors
- Relevant Normal ENT Anatomy and Variants
- Interesting Consults to a General Surgical Pathologist
- What Do We Know About HPV and EBV in ENT Neoplasms?
- Difficulties in the Diagnosis of Lung Carcinoma
- Select Presentations: Neoplastic Lung Disease
- Endometrial Carcinoma Mimics: Metaplasia, Hyperplasia & Atrophy
- "Atypical" Uterine Smooth Muscle Tumors
- Update in Interstitial Lung Disease
- Case Presentations: Non-Neoplastic Lung Disease
- Endometrial Carcinoma: Special Variants
- Uterine Mixed Müllerian Tumors: Updates

NOTE: Please book directly with the Hapuna Beach Prince Hotel and Mauna Kea Beach Hotel at 1-866-977-4589 to receive the special group rates, buffet breakfast and free parking. You must mention Scientific Symposiums International. If you book through a travel agency, wholesaler or any other offer, YOU WILL NOT RECEIVE THE SPECIAL GROUP RATE, BREAKFAST OR FREE PARKING AND INTERNET. For more information and/or clarification, please call Scientific Symposiums International at 925-376-0217. All courses held at the Hapuna Beach Prince Hotel.

NEW FOUR-DAY COURSE

Surgical Pathology for the Practicing Pathologist: GI, GYN, GU, Pancreaticobiliary

OCTOBER 12 – 15, 2015, Registration October 11. Hapuna Beach Prince Hotel/Mauna Kea Resort, Big Island of Hawaii
Course held at the Hapuna Beach Prince Hotel.

LECTURES

- Colorectal Polyps: A Practical Approach
- Pathologic Prognostic Factors in Urothelial Carcinoma
- Ovarian Mucinous Tumors: Diagnostic Approach: Emphasis on "Borderline" Tumors
- Neuroendocrine Tumors of the Gastrointestinal Tract and Pancreas
- Hereditary Colon Cancer Predisposition Syndromes: What Do We Need to Know?
- Benign Mimics of Urothelial Carcinoma
- Ovarian Serous Tumors: Diagnostic Approach: Emphasis on "Borderline" Tumors
- Cystic and Non-Invasive Neoplasms of the Pancreas, Bile Ducts and Gallbladder
- Distinguishing Primary Liver Tumors from Metastases: An Update on Immunohistochemistry
- Renal Neoplasia: Classification and Differential Diagnosis of Common Tumors
- Gestational Trophoblastic Disease: Selected Diagnostic Problems
- Invasive Carcinomas of the Pancreas and Biliary Tract: Beyond the Routine
- Gastrointestinal Lymphomas: A Review for the Surgical Pathologist
- The Use of Immunohistochemistry in the Differential Diagnosis of Genitourinary Tumors
- Hydatidiform Moles: Ancillary Techniques to Refine Diagnosis
- Staging Dilemmas in Pancreaticobiliary Resection Specimens
- Mesenchymal Tumors of the GI Tract: What's New?
- Prostate Biopsy Interpretation: New Concepts from the International Society of Urological Pathology and the WHO
- Topics in Cervical Pathology
- Inflammatory Lesions and Non-Epithelial Tumors of the Pancreas: Bile Ducts and Gallbladder

NEW FOUR-DAY COURSE

Dermatopathology in Paradise: Highlighting Oral Pathology, Soft Tissue Tumors and Lymphoma

OCTOBER 19 – 22, 2015, Registration October 18. Hapuna Beach Prince Hotel/Mauna Kea Resort, Big Island of Hawaii
Course held at the Hapuna Beach Prince Hotel.

LECTURES

- HPV and Head and Neck Cancer
- Epithelial Dysplasia, Grading and Clinical Impact
- Odontogenic Cysts and Tumors
- Salivary Gland Tumors
- Panel Discussion: Case Study in Mucosal Lesions
- Mycosis Fungoides and Sezary Syndrome: Conventional and Unconventional Presentations
- Cutaneous Lymphoma Potpourri: Small-Medium Pleomorphic T-Cell Lymphoma, CD30-Positive Lymphoproliferative Disorders, B-Cell Lymphomas and More
- Lymphomas in the Subcutis: Pearls and Pitfalls
- Instructive Cases from the UCSF Dermatopathology Unit
- Panel Discussion: Diagnostic Challenges in Cutaneous Lymphoma
- The Good, the Bad and the Ugly of Cutaneous Soft Tissue Tumors
- Update on Cutaneous Vascular Tumors
- Acral Pathology: Inflammatory and Neoplastic Lesions of the Hands and Feet
- Molecular Diagnosis of Cutaneous Soft Tissue Tumors
- Myxology: Myxoid Lesions of the Skin
- Granulomatous Dermatitis, from the Obvious to the Obscure
- Spongiform and Psoriasiform Dermatitis: Practical Clinicopathologic Approaches
- Adnexal Carcinomas and their Simulators
- Unusual Variants of Melanoma
- Panel Discussion: 5 Challenging Melanocytic Lesions

Situated along the banks of the James River in Williamsburg, Virginia, **THE KINGSMILL RESORT** retains the magnificent traits and beauty inherent in the early days of the English settlers with grand accommodations, gracious hospitality and stately service. The Kingsmill Resort boasts over 425 villa-style guest rooms and suites, two golf-courses, fully renovated spa and gym, full tennis facility, kayaking, biking, swimming and much more. There is truly something for everyone at this beautiful and serene resort. With four restaurants and a lively lobby bar there is great variety and seasonal dishes. For guests staying at the Kingsmill Resort, there is complimentary shuttle service to nearby Williamsburg, Jamestown and Busch Gardens.

Conveniently located within an easy drive from any point in Virginia, the Kingsmill resort also offers quick access from Richmond, Norfolk or Newport News airports. Upon arrival at the Kingsmill Report you will be immersed in a tranquil and relaxing environment that invites you to leave distractions behind and learn in the state of the art meeting facilities.

ACCREDITATION
Scientific Symposiums International designates this Live activity for a maximum of 20 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Scientific Symposiums International is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Dermatopathology Courses have been approved by the American Board of Dermatology (ABD) to fulfill the periodic self-assessment requirements for ABD Maintenance of Certification.

Scientific Symposiums International is approved by the American Board of Pathology (ABP) to be a provider for Self-Assessment Modules (SAMS), as part of the Maintenance of Certification (MOC) process.

NEW FOUR-DAY COURSE

Surgical Pathology Update: GI, GU, ENT and Soft Tissue

JUNE 15 – 18, 2015, Registration June 14. The Kingsmill Resort, Williamsburg, VA

LECTURES

- Vexing Normal and Non-Neoplastic Findings in the Head & Neck
- Variants of Squamous Cell Carcinoma
- Difficult ENT Consult Cases
- Melanocytic Tumors: What is Relevant for the Dermatopathologist
- Neutrophilic Dermatoses and Sweet Syndrome: Perspectives from a Clinical Practice
- Melanocytic Proliferations of Chronically Sun-Damaged Skin: Challenges and Pitfalls
- The Art of Clinicopathologic Correlation: How to Make it Work for You
- Leukemic Infiltrates of the Skin
- Genetic Diseases: Skin Clues
- Immunohistochemistry: Update and Pitfalls
- The Future of Dermatopathology
- Viral or Not?
- Cutaneous Lymphoma: A Pragmatic Approach
- Follicular Mucinosis: What Does It Mean?
- Tips on Challenging Pigmented Lesions
- The Syphilis Epidemic: If You're Not Seeing It, It May Be Seeing You
- Hospital Dermatopathology and Rapid Communication with Clinicians
- Diagnostically Challenging Cutaneous Carcinomas
- Vascular Tumors: Beyond "Hemangioma"
- Great Cases from MSKCC
- Vascular and Nerve Sheath Tumors: An Update
- An Approach to Cutaneous Spindle Cell Tumors
- An Approach to Spindle Cell Tumors of Deep Soft Tissue
- Ancillary Testing to Colorectal Cancer: Who, What, When, Where and Why
- Memorable Mistakes and Lessons Learned: Open Confession is Good for the Soul

NEW FOUR-DAY COURSE

Critical Issues in Cutaneous Pathology: What's New as Critical New Information for Your Practice

JUNE 22 – 25, 2015, Registration June 21. The Kingsmill Resort, Williamsburg, VA

LECTURES

- ANCA-Associated Vasculitis
- CPC: Great Cases from Yale
- Atypical Borderline Melanocytic Tumors
- Cytogenetic and Molecular Analysis of Melanocytic Tumors: What is Relevant for the Dermatopathologist
- Neutrophilic Dermatoses and Sweet Syndrome: Perspectives from a Clinical Practice
- Melanocytic Proliferations of Chronically Sun-Damaged Skin: Challenges and Pitfalls
- The Art of Clinicopathologic Correlation: How to Make it Work for You
- Leukemic Infiltrates of the Skin
- Genetic Diseases: Skin Clues
- Immunohistochemistry: Update and Pitfalls
- The Future of Dermatopathology
- Viral or Not?
- Cutaneous Lymphoma: A Pragmatic Approach
- Follicular Mucinosis: What Does It Mean?
- Tips on Challenging Pigmented Lesions
- The Syphilis Epidemic: If You're Not Seeing It, It May Be Seeing You
- Hospital Dermatopathology and Rapid Communication with Clinicians
- Diagnostically Challenging Cutaneous Carcinomas
- Vascular Tumors: Beyond "Hemangioma"
- Great Cases from MSKCC

FACULTY

A three-physician Scientific Advisory Board, along with course faculty, plays an integral part of our course planning, topics and lectures. Only the top worldwide Pathologists and Dermatopathologists from highly respected Universities, Hospitals, Laboratories and Institutions are chosen to lecture at our courses.

Each faculty member is selected based on recognized expertise in his or her specialty area of Surgical Pathology or Dermatopathology, skill as a speaker and reputation as a world-class post graduate educator.

NEW FIVE-DAY COURSE

A Practical Approach to Common Problems in Surgical Pathology:

Focus on GI, GU, Soft Tissue, Lung and Head & Neck Pathology, February 16 – 20, 2015 (Monday – Friday) The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel.

John R. Goldblum, M.D., Course Director. The Cleveland Clinic Lerner College of Medicine, Cleveland, OH; Kristen A. Atkins, M.D., University of Virginia Health System, Charlottesville, VA; Lisa Yerian, M.D., The Cleveland Clinic, Cleveland, OH; Jeffrey L. Myers, M.D., University of Michigan, Ann Arbor, MI; Ed Stelow, M.D., University of Virginia Medical Center, Charlottesville, VA.

NEW FOUR-DAY COURSE

Surgical Pathology Update: GI, GU, ENT and Soft Tissue, June 15 – 18, 2015 Kingsmill Resort, Williamsburg, VA

Stacey E. Mills, M.D., Course Director. W.S. Royster Professor of Pathology, University of Virginia Medical Center, Charlottesville, VA; Jason L. Hornick, M.D., Ph.D., Brigham and Women's Hospital, Harvard Medical School, Boston, MA; Jesse K. McKenney, M.D., The Cleveland Clinic, Cleveland, OH; Rhonda Yantiss, M.D., Weill-Cornell Medical College, New York-Presbyterian Hospital, New Haven, CT.

NEW FOUR-DAY COURSE

Critical Issues in Cutaneous Pathology: What's New as Critical New Information for Your Practice, June 22 – 25, 2015, Kingsmill Resort, Williamsburg, VA

Dirk M. Elston, M.D., Course Director, Ackerman Academy of Dermatopathology, New York City, NY. After July 1, 2015, Dr. Elston will be Chairman of the Dermatology Department at Medical University of South Carolina, Charleston, SC; Christine J. Ko, M.D., Yale School of Medicine, New Haven, CT; Larry Gibson, M.D., Mayo Clinic, Rochester, MN; Tammie Ferringer, M.D., Geisinger Medical Center, Danville, PA.

NEW FOUR-DAY COURSE

Celebrating the Illustrious Career of Dr. Richard L. Kempson: Surgical Pathology of the Breast, Female Genital Tract, Head & Neck and Lung, July 20 – 23, 2015, The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel

Stuart J. Schnitt, M.D., Co-Course Director. Harvard Medical School Beth Israel Deaconess Medical Center, Boston, MA; Stacey E. Mills, M.D., Co-Course Director, W.S. Royster Professor of Pathology, University of Virginia Medical Center, Charlottesville, VA; Christopher D.M. Fletcher, M.D., Brigham and Women's Hospital, Boston, MA; Richard L. Kempson, M.D., Professor Emeritus, Stanford University Medical Center, Stanford, CA; Teri A. Longacre, M.D., Stanford University Medical Center, Stanford, CA; Thomas V. Colby, M.D., Mayo Clinic, Scottsdale, AZ.

NEW FOUR-DAY COURSE

Surgical Pathology for the Practicing Pathologist: GI, GYN, GU, Pancreaticobiliary, October 12 – 15, 2015, The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel

Jason L. Hornick, M.D., Ph.D., Brigham and Women's Hospital, Harvard Medical School, Boston, MA; Alyssa Krasinskas, M.D., Emory University Hospital, Atlanta, GA; Brigette Ronnett, M.D., John Hopkins Bay View Medical Center, Baltimore, MD; Victor E. Reuter, M.D., Memorial Sloan Kettering Cancer Center, New York City, NY.

Dermatopathology in Paradise: Highlighting Oral Pathology, Soft Tissue Tumors and Lymphoma, October 19 – 22, 2015, The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel

Philip E. LeBoit, M.D., Course Director. University of California Medical Center, San Francisco, CA; Steven D. Billings, M.D., The Cleveland Clinic, Cleveland, OH; Laura Pincus, M.D., University of California Medical Center, San Francisco, CA; Richard Jordan, M.D., University of California Medical Center, San Francisco, CA.

FEATURED 2015 COURSE FACULTY

A Practical Approach to Common Problems in Surgical Pathology: Focus on GI, GU, Soft Tissue, Lung and Head & Neck Pathology

JOHN R. GOLDBLUM, M.D. is Chairman, Department of Anatomic Pathology, Cleveland Clinic; Professor of Pathology, Cleveland Clinic Lerner College of Medicine, Cleveland, OH. He received his B.S. and M.D. degrees and his AP residency at the University of Michigan, Ann Arbor, MI. He is author of more than 270 peer-reviewed articles, the majority of which are on GI and soft tissue pathology. He is currently chair of the USCAP Education Committee and a member of the Scientific Advisory Board of Scientific Symposiums International.

Dermatopathology in Paradise: Highlighting Oral Pathology, Soft Tissue Tumors and Lymphoma

PHILIP E. LEBOIT, M.D., is Professor of Clinical Pathology and Dermatology at the University of California, San Francisco, and Division Chief, Dermatopathology, Co-Director, UCSF Dermatopathology Service University of California Medical Center, San Francisco. As a consultant, author and clinical investigator, Dr. LeBoit is one of the leading figures in contemporary Dermatopathology. He has written over 150 articles, edited or co-authored eight books and is currently co-editor of Seminars in Cutaneous Medicine and Surgery and an Associate Editor of the Journal of Investigational Dermatology. His contributions to medical literature include the first comprehensive descriptions of bacillary angiomatosis, primitive polypoid granular cell tumor and nephrogenic fibrosing dermapathy, and many studies of Spitz's nevus. He has given over 300 invited lectures around the world.

Surgical Pathology Update: GI, GU, ENT and Soft Tissue

STACEY E. MILLS, M.D., is currently W.S. Royster Professor of Pathology, Chief of Anatomic Pathology and Director of Surgical Pathology and Cytopathology, University of Virginia Medical Center, Charlottesville, VA. He is a graduate of the College of William & Mary and the University of Virginia School of Medicine and Board certified in Anatomic Pathology. He is author of over 250 major publications and over 300 national and international invited speakerships. Dr. Mills is editor-in-chief of the American Journal of Surgical Pathology and two major pathology textbooks, Histology for Pathologists and Diagnostic Surgical Pathology. He is a member of multiple pathology editorial boards and a member of the Scientific Advisory Board of Scientific Symposiums International.

Pathology of the Breast, Female Genital Tract, Head & Neck and Lung

STUART J. SCHNITT, M.D., is currently Director of the Division of Anatomic Pathology at Beth Israel Deaconess Medical Center, a consultant in Pathology at the Dana Farber Cancer Institute, co-leader of the Dana Farber Harvard Cancer Center Breast Program, and a Professor of Pathology at Harvard Medical School. An internationally recognized expert in breast pathology, Dr. Schnitt has published over 300 original articles, review articles, editorials, commentaries, and book chapters, primarily in breast diseases. The author of a popular breast pathology textbook entitled "Biopsy Interpretation of the Breast", it is in its second edition, as well as in Chinese. He is one of the editors of the 4th Edition of the "World Health Organization Classification of Tumours of the Breast", published in 2012 and been cited in multiple editions of "The Best Doctors in America" and "America's Top Doctors". Dr. Schnitt is a Past President of the United States and Canadian Academy of Pathology and has lectured extensively worldwide. His research interests and contributions to the understanding of benign breast diseases and breast cancer have been broad, but have largely focused on risk factors for local recurrence in patients with invasive breast cancer and ductal carcinoma in situ treated with breast conserving therapy, benign breast disease and breast cancer risk, and stromal-epithelial interactions in breast tumor progression. Dr. Schnitt is a member of the Scientific Advisory Board of Scientific Symposiums International.

REGISTRATION 2015

SPACE IS LIMITED! REGISTER ONLINE AT: www.scientificsymposiums.com

Please check the course or courses you wish to attend:

FIVE-DAY COURSE: SURGICAL PATHOLOGY (Five-Day Course Tuition: \$1,245; SAM Exam Fee: \$95) Scientific Symposiums International is approved by the American Board of Pathology (ABP) to be a provider for Self-Assessment Modules (SAMS), as part of the Maintenance of Certification (MOC) process.
HAWAII: A Practical Approach to Common Problems in Surgical Pathology: Focus on GI, GU, Soft Tissue, Lung and Head & Neck Pathology, February 16 – 20, 2015 (Monday – Friday) The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel.

FOUR-DAY COURSES: SURGICAL PATHOLOGY (All Four-Day Course Tuitions: \$1045; SAM Exam Fee \$95) Scientific Symposiums International is approved by the American Board of Pathology (ABP) to be a provider for Self-Assessment Modules (SAMS), as part of the Maintenance of Certification (MOC) process.

- VIRGINIA: Surgical Pathology Update: GI, GU, ENT and Soft Tissue, June 15 – 18, 2015 Kingsmill Resort, Williamsburg, VA.
HAWAII: Celebrating the Illustrious Career of Dr. Richard L. Kempson: Surgical Pathology of the Breast, Female Genital Tract, Head & Neck and Lung, July 20 – 23, 2015 The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel.
HAWAII: Surgical Pathology for the Practicing Pathologist: GI, GYN, GU, Pancreaticobiliary, October 12 – 15, 2015, The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel.

FOUR-DAY COURSES: DERMATOPATHOLOGY (All Four-Day Course Tuitions: \$1045; SAM Exam Fee \$95) The Dermatopathology Courses have been approved by the American Board of Dermatology (ABD) to fulfill the periodic self-assessment requirements for ABD Maintenance of Certification.

- VIRGINIA: Critical Issues in Cutaneous Pathology: What's New as Critical New Information for Your Practice, June 22 – 25, 2015, Kingsmill Resort, Williamsburg, VA.
HAWAII: Dermatopathology in Paradise: Highlighting Oral Pathology, Soft Tissue Tumors and Lymphoma, October 19 – 22, 2015, The Mauna Kea Resort, Big Island of Hawaii. Course held at the Hapuna Beach Prince Hotel.

The Dermatopathology Courses have been approved by the American Board of Dermatology (ABD) to fulfill the periodic self-assessment requirements for ABD Maintenance of Certification.

Scientific Symposiums International is approved by the American Board of Pathology (ABP) to be a provider for Self-Assessment Modules (SAMS), as part of the Maintenance of Certification (MOC) process.

Each lecture topic is covered by a 45-minute lecture or panel discussion, followed by a 15-minute question and answer session each day of the course. The course lectures begin at 7:30 a.m. and end at 1 p.m.
